

George Petrakos

Associate Professor of Quantitative Methods, Panteion University, GR

Director General, Research Institute for Tourism (RIT), GR

George Petrakos is an Associate Professor of Quantitative methods and Information Systems at Panteion University, Director General of the Research Institute for Tourism (RIT) in Athens, Greece and Member of the Greek Observatory for Tourism. He obtained his diploma in Mathematics, from the University of Athens (1988). In 1990 he completed his Master of Science degree in Applied Statistics and Information Systems in The George Washington University, Wash. D.C., USA. In 1993 he was awarded with an honoured Ph.D. degree in Statistics from the University of Wyoming, USA. He has an extensive teaching experience at George Washington University, University of Wyoming, Panteion University of Athens, Hellenic Open University and National and Kapodistrian University of Athens. He has been the Instructor of graduate and undergraduate courses in Mathematics, Statistics, Data Analysis, Informatics, Survey Methodology, Quantitative methods, Audit Sampling, Applied Econometrics and Time Series.

Dr. Petrakos has published over 40 papers in highly rated scientific journals and international conferences proceeding, subjecting Applied Statistics, Survey methodology, Data Quality, Audit sampling and Biostatistics. His academic research has been awarded by the scientific community with over 300 citations. He is also the author of two academic textbooks in Greek subjecting Everyday Life Statistics and Applied Probability with R. He is a member of several scientific societies as the Royal Statistical Society, Orbicom/Unesco, the Greek Mathematical Society and the European Survey Research Association. He is also reviewer for the Journal of the Royal Statistical Society, the journal of Applied Statistics and the Journal of Artificial Intelligence and associate editor in Statistical Review and ESRA journal.

During the last 20 years, he has established a close cooperation with Eurostat and other European and International Statistical Organizations providing high quality statistical services in selected areas as Data Validation, Data Quality, Data Analysis, New Indicators, Electronic Data Transfer, Metadata, Paradata, Integration of data sources, Audit Sampling. He is currently responsible for the design, process, analysis and dissemination of all quantitative surveys in tourism from RIT and he is also the designer and the auditor of the daily audience rating survey in Athens.
